To: Lester Snow

EXECUTIVE DIRECTOR, CALFED

1416 9th St.

SACRAMENTO CA 95814

Dear Mr. Snow -

Please consider this letter a response to the revised Calfed Plan.

I oppose Calfed's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs. Calfed's plan to raise Shasta dam would flood segments of the upper Sacramento & McCloud Rivers. Calfed's proposed sites offstream storage reservoir would require massive water diversion from the Sacramento River.

I urge Calfed to expand water efficiency conservation, and reclamation programs to stretch the existing water supply, instead of

3/15

building new dams & canals. This could be done by switching to higher value & less water consumption crops & by installing water meters for all agricultural & urban uses.

We cannot solve the ecological problems caused by dams & diversion, by building more dams & diversion.

Thank you for your time & consideration.
I look forward to hearing your position
on this issue.

Sincerely,

Bruce Angerson
